

Joseph Chambers

Full-Stack JavaScript Developer

Willing to relocate.
(734) 493-2182
joseph@michael-chambers.com

WHAT I DO

- Develop project concepts, complete detailed programming and development task for front end websites as well as challenging back-end server code.
- Collaborate with designers to create clean interfaces and simple, intuitive interactions and experiences.
- Gather and refine specifications and requirements based on technical needs

PROJECTS

GiftCashing — *Full Stack*

The development consisted of an admin dashboard that provides users with ability to manage gift cards and orders by being able to edit, sort and approve them. Not only was it an amazing job to be part of, the code is some of my best work.

Tools: NodeJS, ExpressJS, Mongoose, SCSS, Bower, gulp.js

CrossFit Affiliates — *Front End Development*

I converted several PSD's into a custom WordPress theme and worked on the development the websites like **Frontier 587**, **Crossfit Quiver**, **Devotion**, and **Hotside Crossfit** by collaborating closely with multiple designers and developers and working as a team.

Tools: Wordpress, LESS

Aqua Guard Injection — *Front End Development*

Migrated a website from HubSpot to WordPress with a more modern, and custom theme provided by the designer. I was asked to remove several pages, and blog posts and make a secondary website, "Fix Your Watery Basement." Proper microdata for SEO purposes were used for the service pages on Aqua Guard Injection.

Tools: Wordpress, Bootstrap

SKILLS

I am a flexible well-rounded engineer interested in Distributed Systems, Data Analysis and Security.

Having worked in multiple layers of the stack allows me to have a unique insight in how to solve existing problems or achieve newer goals.

LANGUAGES

JavaScript/Node, Ruby, Docker, MongoDB, MySQL, ElasticSearch

AWARDS

Startup Weekend I was apart of a team that was pitched at Startup Weekend and we won first place.

INTERESTS

Infrastructure Automation, User Experience, Conversion Rate Optimization, Analytics

WORK EXPERIENCE

Freelance,

December 2008 - PRESENT

This role I focused on identifying all areas of improvement for online execution and accountability for my customers websites. I worked with multiple Business Owners, Designers and company stakeholders on a daily basis. Highlights:

- Released several websites, workflow enhancements, and website features.
- Increased eCommerce Sales by 300% which help lead to one customer to be listed on the fortune 5000.

Beckertime, Fort Worth, TX — eCommerce Operations

Feb 2015 – May 2015

I was responsible for the management and execution of the company's online presence using a wide spectrum of tactics that include SEO, CPC, CRO, Retargeting and product marketing.

Highlights:

- Oversaw multiple developers, designers, content writers, and other contractors to ensure delivery on time, and on budget.
- Increased website revenue via UX, and CRO.
- Managed Search, and Product strategy to promote and increase our visibility.

Instinct Marketing, Plano, TX — SEO Specialist

May 2011 – Jan 2012

The key to success at this position was the consistent execution of online tactics that focused on increasing traffic and conversions on 50 different online matchmaking lead generation sites. Highlights:

- Generated organic online traffic to lead pages that converted into dollars.
- Increased local search position by creating citations.
- Worked with developers to create procedures 'ship' more lead generation sites.

TESTIMONIALS

-USAOpen.com & MyGiftsExpress.com

"We have worked with Joseph on several projects with a few more lined up. He has been extremely professional and continues to exceed our expectations each time. He has a wealth of knowledge and has tackled many issues that other companies wouldn't venture into."

-Raj Lwin, Managing Partner

-Stark Lane, Inc.

"Joseph was great to work with. He did a great job fixing my WordPress issues. He was very responsive and gave me expedient solutions."

-Rudbekia Bach, Director of Operations

-Saratoga Paint & Sip, Burlington Paint & Sip Studio

"Joseph was an immense help to my business in a jam. I was referred to him by a colleague. He made my project a priority. I was pleased with his attention to detail and responsiveness. I highly recommend him for any of your server administration needs."

-Catherine Hover, CEO

SEO By The Hour, San Diego, CA — SEO Specialist

Nov 2008 – Dec 2009

- Technical Aspect of On-Page SEO
- Developed in-house tools to find and create citations.
- Implementing all the on-page improvements which were reported to the client.

EDUCATION

Free Code Camp — Frontend Development Certification

2015 - 2016

Free Code Camp Frontend Development Program covers an estimated 500 hours of coursework that includes HTML5, CSS, JavaScript and jQuery.

This is broken up with 10 basic, intermediate, and advanced projects. As well as 16 basic algorithms, and 21 intermediate algorithms were completed.

-Beckertime

“I have worked alongside Joseph for many years. He has always been very helpful in assisting with technical problems and consistently delivered fantastic results when facilitating updates and changes to the Beckertime website while also managing the site as well as it's servers. His analytical skills were a fantastic asset to the organization. His experience in SEO and web development is evident in the way he approaches even the most sophisticated tasks. He is great in dealing with difficult situations and a fantastic problem solver. I recommend him to anyone..”

-Shaina Purser, Social media Marketing Specialist
