## PROFILE

### *React, and Node Developer*

*Currently working and building Web Applications with React. I'm a result driven, and raising the bar in development through the collaboration of management teams to build bigger ideas. Extensive experience in digital marketing space and product development provides you with creative entrepreneurial solutions.*

## TECHNICAL SKILLS & INTERESTS

- React
- Node
- GraphQL
- SCSS
- MySQL
- MongoDB
- AWS
- Python

## PROFESSIONAL EXPERIENCE

**JavaScript Developer, Alio IT Solutions - Oct/2017 - May/2018 - Hermosillo, Sonora**

In this role I've worked on a few project projects for the Alio's customer Claim Ruler. I worked on a CRM for an insurance platform. Highlights:

- Created an Ad Hoc Report Builder with ReactJS as the frontend, I had to build SQL Queries based on input, and send data to the API endpoint ( api gateway/lambda functions with python ) where I process and build a Jasper Report (SQS).
- I worked on a team of two, and we created React Native Application in about 3+ weeks. Specifically I worked on creating the login to work with an existing cognito user pool, setting up the React Native Navigation, and styling the components with styled components.
- I worked on a team of 6, and we designed, and bootstrapped an Software as a Service CRM. Specifically I worked on designing a custom built Access Control to dynamically build the components. After that I was mainly in charge of translating the design from Sketch to the components.

## PREVIOUS EXPERIENCE

### **Classroom Mode** — *Full Stack JavaScript Developer*

I started contributing to open source through this project on the FreeCodeCamp repository. I've worked on restructuring the codebase, worked on creating and fixing tests. I've worked on both the frontend and backend here. I've gained the respect of the developer team, and gained write access.

*Tools:* ReactJS, Express, Mongoose, and Jest

### **GiftCashing** — *Full Stack JavaScript Developer*

The development consisted of an admin dashboard that provides users with ability to manage gift cards and orders by being able to edit, sort and approve them.

*Tools:* NodeJS, ExpressJS, Mongoose, SCSS, Bower, gulp.js

## SIDE PROJECTS

**Crypto Portfolio:** An open-source platform to monitor your cryptocurrency.

**Teaching Assistant:** I participate in NodeSchool workshops where I mainly act as a TA but also have given two workshops.

## EDUCATION

### **2016 Free Code Camp — Front End Development Certification 2016**

Free Code Camp Front End Development Program covers an estimated 500 hours of coursework that includes HTML5, CSS, JavaScript and jQuery. This is broken up with 10 basic, intermediate, and advanced projects. As well as 16 basic algorithms, and 21 intermediate algorithms were completed.

## ***Professional References for Joseph Chambers***

---

Robert Colvin - Vice President Of Software Engineering and Architecture at ClaimRuler

Email: rcolvin@claimruler.com

"I found Joseph to be smart, savvy with strong focus and dedication to solving problems of the business and IT at 777. He provides keen insights on code, architecture, risk and more, while embracing best practices. Joseph has shown incredible promise with his JavaScript skills and now Python within (AWS) he has demonstrated an appetite to go above and beyond in meeting business needs and requirements. Joseph would be an asset in any organization and has earned the trust and respect of our IT team."

Catherine Hover - Saratoga Paint & Sip, Burlington Paint & Sip Studio

Email: catherine.hover@gmail.com

"Joseph was an immense help to my business in a jam. I was referred to him by a colleague. He made my project a priority. I was pleased with his attention to detail and responsiveness. I highly recommend him for any of your server administration needs."

Steve Viesto - UI & Web Designer

Email: stephenviesto@gmail.com

"Joseph delivered a fully developed theme based off the design I provided him with. He is extremely easy to work with and reliable. Joseph went above and beyond to communicate and was flexible during the entire process. I would recommend him and will definitely be working more with him in the future!"
